

The Power of Choice

Northex Group's goal is to save you and your business money!

The power to choose your energy provider is a great opportunity to save money and increase profits because energy costs can make up a significant percentage of a business' operational overhead. The cost of Energy is very volatile, and negatively impacts your bottom line.

Even companies with energy management departments find the challenges seeking solutions very daunting.

Energy markets fluctuate while the set of suppliers is regionally diverse. Add the fact that state and local distribution territory regulations vary substantively, and you begin to grasp the challenges that businesses face when they manage their energy.

Northex Group and it's strategic partners simplifies an overly complicated process.

As additional areas deregulate and companies compete more and more, the price of energy is expected to remain volatile. This presents opportunities for us to help you save on your energy costs. While suppliers compete to acquire customers, you will need a straightforward company like Northex Group to help procure energy wisely. We work closely with our strategic partners to offer you attentive service with real-time market data to find opportunities and make decisions to your benefit.

Northex Group offers business owners and managers the peace of mind that comes with a comprehensive service that will save you time and money. After we work diligently to understand your needs and goals, our strategic partners bid-out your business to energy suppliers. Multiple 'Request for Quote' forms are sent to suppliers as we handle the posturing with big energy companies so you don't have to. Lastly, when the offers come in, we make sure you get the best rate-plan possible by analyzing the current markets' risk and price volatility, reviewing and managing the incoming offers, and checking the fine print for hidden costs or risk.

Diversified Solutions to energize your bottom line ...

It's your Choice, don't be left in the dark...

Get Started Today! Just Fax or E-Mail a copy of your last energy bill to us or call us to set up a free no obligation consultation with one of our energy specialist.
